Contents

<i>Foreword</i>	<i>v</i>
<i>Preface</i>	<i>vii</i>
<i>List of Contributors</i>	<i>ix</i>

1. Desert, Desertification and Community Resilience	1
Introduction	1
Manifestations of Desertification	2
Desertification : Global Concern	4
Areas Vulnerable to Desertification	6
Land Quality	8
Climate Change and Desertification	9
Managing Climate Risk in Rural Kenya	12
<i>Conclusion</i>	13

A. Climate Change and Desertification

2. Desertification Paradigms and Measurements in Indian Context	17
Introduction	17
Changing Paradigms and their Bearing on Measurement Needs	19
Indicators and Benchmarks for Measuring Desertification.	21
Shifts in Measurement Domains of Desertification	22
The D-P-S-I-R Concept	22
Indicators for Measuring the Implementation of Combating Activities	23
Indicators of Desertification : Examples from Arid Lands of India	25
State Indicators	25
Pressure Indicators	30
Socio-economic Indicators	32
Desertification Mapping in India	34

	Harmonization of Heritage Data at National Level	35
	Systematic Mapping of Desertification based on Remote Sensing	36
	Systematic Land Degradation Mapping at Country Level ...	37
	Looking Beyond Visual Interpretation	43
	Test Cases of Desertification Monitoring in a Digital Environment	45
	<i>Conclusion</i>	49
3.	Desertification in the Eastern Margin of Arid Western Rajasthan – A Geomorphological Assessment	57
	Introduction	57
	Climate and Environment	59
	Physiography and Drainage	60
	Terrain and Landform Characteristics	60
	Morphological Characteristics of Landforms	62
	Present Land Use	66
	Types, Distribution and Morphology of Degraded Landforms	67
	Erosion of Sandy Uplands	67
	Erosion of Rocky Uplands	69
	Drainage Network and Water Erosion	70
	<i>Discussion and Conclusion</i>	71
4.	Climate and Environmental Changes in the Drylands of Central Asia	73
	Introduction	73
	Study Area and Historical Trends of Climate Change.....	74
	Regional Climate Changes Caused by the Aral Sea Degradation	77
	Climate Change Impacts and Human Vulnerability	80
	Human Vulnerability to Climate Change	82
5.	Survival Strategies Facing Effects of Climate Change in the North Cameroonain Drylands	89
	Introduction	89
	From the Recent Quaternary Paleoclimate Oscillations to Present Day Variations in Chad Lake Basin and Its Southern Limit	90

	Manifestations and Climate Change Perceptions	95
	Survival Strategies to Face the Climate Drying	98
	<i>Conclusion</i>	103
6.	Climate Change Impacts and Small Scale Farmers : Perceptions and Coping Strategies in Southern Zambia ...	105
	Introduction	107
	Concepts of Climate Change Adaptation, Vulnerability and Mitigation Explained	109
	<i>Findings and Conclusion</i>	110
	The Way Forward	121
7.	Desertification Status in the Democratic Republic of Congo	123
	Anthropic Activities	124
	Natural Factors	124
	Economic Power of Great Arid Zones	125
	Constraints	126
	<i>Conclusion</i>	126
8.	Desertification and Adaptation of Producers’ Endogenous Agricultural Practices in Burkina Faso	129
	Introduction	130
	Methodology of Research	132
	<i>Conclusion</i>	136
9.	Status of Wetland Degradation in Banni and Its Impact on Maldhari Community in Arid Kachchh, Gujarat	139
	Introduction	140
	Banni Wetlands	140
	Material and Methods	141
	Details of Satellite Data	141
	Data Used and Interpretation	141
	Results and Discussion	142
	Issues in Banni Related to Wetland	142
	Overgrazing	143
	Sedimentation	143
	Irregular Rainfall	143
	Changes in Species Composition	144

Current Scenario	144
Problems in the Banni Dhandhs	146
Problem Faced by Maldharis	146
<i>Conclusion</i>	147
<i>Future Steps to Overcome Wetland Conservation</i>	148
<i>Acknowledgements</i>	148
10. Geo-Environmental Hazards and the Future Planning of the Coastal Area between the Two Nile Branches Rosetta and Damietta for Sustainable Development, North of Nile Delta, Egypt	151
Introduction	152
Materials and Methods	153
Geoenvironmental Hazards	154
Erosion and Sea Level Changes	154
Sand Dune Encroachment	166
Salting of Soils	167
Drying Many Parts of El Burullus Lagoon	168
Siltation of Damietta Harbour Navigation Canal	168
Defective Distribution of Population on the Coastal Plain ...	169
Pollution	169
The Negative Effects on the Coastal Protection Projects	169
Mangement of the Coastal Areas	170
The Future Planning for the Study Area	173
<i>Conclusions</i>	180
11. Coastal Sand Dune Encroachment as a Main Reason for Desertification in the Coastal Area Between Gamasa and Burg El-Burullus, North of the Nile Delta, Egypt	185
Introduction	186
Types of Coastal Sand Dunes	187
Sand Dune Encroachment	189
<i>Conclusions</i>	193
 B. Resources, Development and Management	
12. 'ORANS' : The Sacred Groves of Thar Desert, India	195
Introduction	195

Status of Common Property Resources in India	196
Origin of <i>Oran</i>	197
<i>Orans</i> Serve as Gene Pool Conservation System	199
Declining trend in <i>Orans</i>	200
Contribution of Commons in Food Security	207
<i>Conclusion</i>	208
13. Sustainable Management of Small Scale Irrigation Projects, Case Study : Um Jawaseer Desert Farm Project, Sudan	211
Introduction	212
Irrigation in Desert Lands	214
Planning and Management of Irrigation Projects	217
Impact of the Irrigation Project	222
Strategies for Economic Sustainability	226
14. Indigenous Water Saving Technologies in Arid and Semi-Arid Regions : Examples from Sudan	229
Introduction	229
Sudan : Geography and Environment	230
Drought and Aridity	231
Water Saving Categories	232
Importance of Indigenous Technologies	232
Types of Indigenous Water Saving Technologies	233
Examples of IWST in Sudan	233
Research and Development	240
15. Water Budgeting in Arid Lands	243
Why Water Budget?	243
How to go About Planning Water Conservation, With Water Budget in Mind?	244
Better Water Demand Management Practices	245
Better Staff Skills to Educate Residents and Manage Resources	246
Reduction of Financial, Institutional and Political Constraints	247
Customer and Stakeholder Communication and Water Conservation Program Marketing	247

How to go About Designing a Water Budget for an Agency?	248
Outcomes of Water Budget	249
When to Introduce a Water Budget System	250
How to Calculate Water Budget	251
A Step-by-Step List to Implementing Water Budget	252
16. Issues for Future Urban Planning in Rajasthan	257
Introduction	257
Urban Growth in Rajasthan	258
Changing Structure of the Urban Settlements	262
Planning and Administration for Structural Changes	263
Livelihood Opportunities as Determinant of Urbanization .	265
Models of Urban Forms	266
Designs of Sustainable Urban Forms	267
Suggestions from UN-Habitat	269
Need for Policy and Investment Support	271
Encouraging Rurbanization : An Alternative to Urban Sprawl	276
17. UAE Space Reconnaissance Center as a Valuable Imagery Resource for Monitoring the Environment : An Investigation on Sand Movement	279
Introduction	280
Role of Remote Sensing in Monitoring Sand Movement and Desertification	283
Method of Investigation and Imagery Data Utilized	284
Discussion of Results	286
Conclusions and Recommendations	291
18. The Impact of Land and Water Management on Soil Degradation in Case of Siwa Oasis, Egypt	293
Introduction	294
Water Resources	297
Soils	298
Irrigation and Drainage	299
Soil Degradation under Poor Drainage Condition	301
Conclusion	304

19. Economic Evaluation of Precast Concrete Lining in Desert Areas	309
Introduction	309
Materials and Methods	311
Results and Discussions	316
Economic Evaluation	318
Conclusions	318
20. Images are an Outstanding Evidence on Rapid Development : A Perfect Example from United Arab Emirates (UAE)	321
Introduction	322
Motivation and Aim	322
UAE Development Facts	323
Methodology and Input Data	326
Data Analysis and Results	326
Conclusions	329
Acknowledgements	329
21. Urban Sustainability Perspectives on Changes in Adaptation to Saudi Arabian Desert Environment: The Role of Geospatial Technologies	331
Introduction	332
Saudi Arabian Desert Environment	334
Traditional Adaptation Methods: The Nomads, Agricultural Settlers and Town Dwellers	336
Modern Technological Adaptation: Nomads became Settlers and Movement to the Cities	338
New Challenges of Modern Saudi Cities and Urban Sustainability	339
The Role of Geospatial Techniques in Sustainable Urban Development in Saudi Arabia	343
Concluding Remarks	345

Environment, People & Development

Readership: The book will be useful to people interested in environmental sciences, geospatial studies, geography, climate change and natural resources

Desert regions are familiar faces in many pages of history of the world. The earliest civilizations and two of the world's major religions were born here.

This publication "Environment, People and Development: Experiences from Desert Ecosystems" highlights some of the basic and technologically refined information from many parts of the Desert ecosystems of the world.

2014, 368 pages, figures, colour plates, 25cm

Mahesh Kumar Gaur: Senior Scientist-Geography, Cartography & Land Use Section, Division of Natural Resources and Environment (CAZRI/ICAR), Jodhpur, Rajasthan, India.

Pratap Chandra Moharana: Principal Scientist at (CAZRI/ICAR), Jodhpur in Division of Natural Resources and Environment.

CONTENTS

- Desert, Desertification and Community Resilience
- Desertification Paradigms and Measurements in Indian Context
- Desertification in the Eastern Margin of Arid Western Rajasthan – A Geomorphological Assessment
- Climate and Environmental Changes in the Drylands of Central Asia
- Survival Strategies Facing Effects of Climate Change in the North Cameroonian Drylands
- Climate Change Impacts and Small Scale Farmers: Perceptions and Coping Strategies in Southern Zambia
- Desertification Status in the Democratic Republic of Congo
- Desertification and Adaptation of Producers' Endogenous Agricultural Practices in Burkina Faso
- Status of Wetland Degradation in Banni and Its Impact on Maldhari Community in Arid Kachchh, Gujarat
- Geo-Environmental Hazards and the Future Planning of the Coastal Area between the Two Nile Branches Rosetta and Damietta for Sustainable Development, North of Nile Delta, Egypt
- Coastal Sand Dune Encroachment as a Main Reason for Desertification in the Coastal Area Between Gamasa and Burg El-Burullus, North of the Nile Delta, Egypt
- 'ORANS': The Sacred Groves of Thar Desert, India
- Sustainable Management of Small Scale Irrigation Projects, Case Study: Um Jawaseer Desert Farm Project, Sudan
- Indigenous Water Saving Technologies in Arid and Semi-Arid Regions: Examples from Sudan
- Water Budgeting in Arid Lands
- Issues for Future Urban Planning in Rajasthan
- UAE Space Reconnaissance Center as a Valuable Imagery Resource for Monitoring the Environment: An Investigation on Sand Movement
- The Impact of Land and Water Management on Soil Degradation in Case of Siwa Oasis, Egypt
- Economic Evaluation of Precast Concrete Lining in Desert Areas
- Images are Outstanding Evidence on Rapid Development: A Perfect Example from United Arab Emirates (UAE)
- Urban Sustainability Perspectives on Changes in Adaptation to Saudi Arabian Desert Environment: The Role of Geospatial Technologies
